

Merlin Drug Testing Lab Control Solution

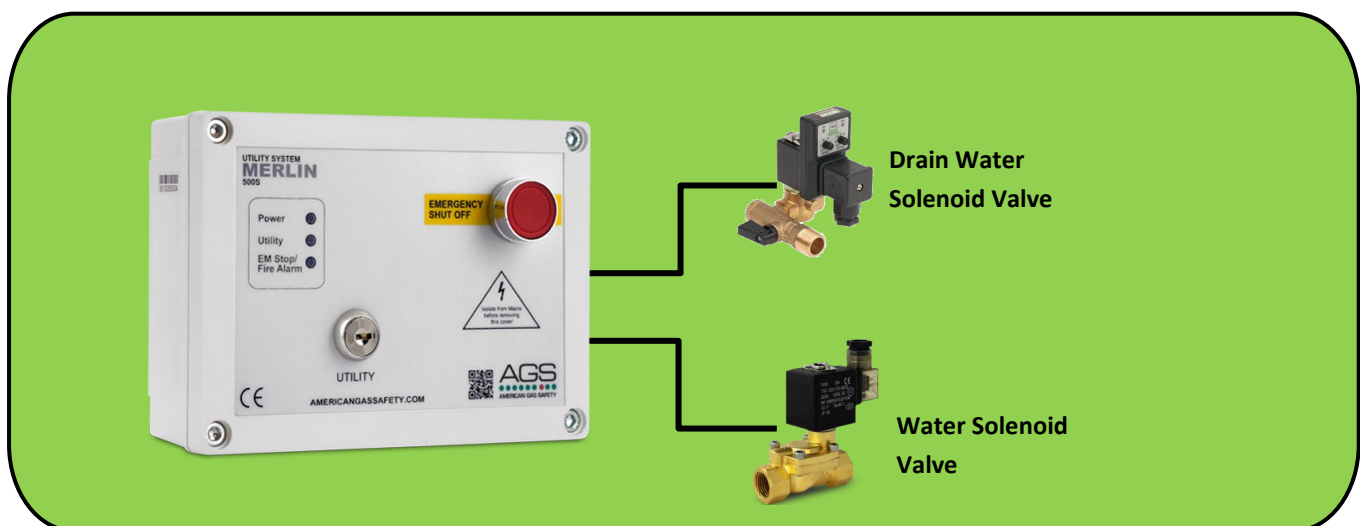

Water Control & Isolation for Drug Testing Laboratories

This AGS solution is ideal for drug testing laboratories to prevent water flowing to the restrooms where drug samples are being taken.

The 500S panel is designed to provide the user with an effective means of isolating the water supply via a key switch. Connections can be made to additional solenoid valves to control the drain supply if required.

The 500S is simple to fit and is an excellent isolation panel with little maintenance required. This controller carries a 3 Year AGS warranty and is fully supported by our technical team.

Various water solenoid valve sizes available ranging between 1/2" thru to 3".

Each Merlin panel comes with our standard 3 year limited warranty and are available off the shelf from our Florida warehouse.
