eliminates accidental shut down

Ease Of Access

QR code for easy access
to manuals

Incredibly Easy to Use & Install

- ✓ Keyed authority over utilities
- ✓ Local shutdown button on controller to shut off utilities in emergency
- ✓ Multiple utilities can be controlled

TAKE CONTROL OF YOUR UTILITIES

The 500S+ is designed to provide an effective way of isolating gas, water, electricity, oil, compressed air & various other utilities by means of a key switch on the panel or by the operation of the emergency shut off button.

The 500S+ is an excellent dual isolation panel. Simple to fit with little maintenance required and is covered by the full support that comes with the entire range of Merlin products.

The AGS solutions are already protecting hundreds of academic, commercial & domestic properties across the U.S.

Intuitive and accessible design makes the AGS range easy to specify, easy to install and very user friendly.

Modern components compliment years of industry experience to provide a tidy solution to utility control.

Multiple inputs available to adapt the operation of the controllers, including fire alarm shut down and BMS communications.
