

Fire House Range Gas Safety Solution

Automatic Gas & Electric Shutdown Incorporating

When firefighters rush to help, they sometimes leave their Gas or Electric ranges on. These instances can lead to embarrassing if not fatal accidents which can cause huge amounts of damage. The simple solution is to connect a Merlin 1000Si to the annunciation alarm within the Firehouse which will isolate the gas or electric whenever a call comes in. If the alarm goes off and some firefighters are still cooking they can override the shutdown using a simple authority key.

Compact, robust and reliable controllers to protect the people who protect us

Modern Design
Slim compact enclosure

Emergency Shutdown
Recessed panic button eliminates accidental shut

Easy To Use
Clear status indication for each Utility

Quick Operation
Keyed or rocker switch authority ON/OFF
Alarm re-set

Multiple Mounting Options
Available for wall, fire wall and flush mount applications

Automatic Emergency Shutdown
Merlin controller can shutdown gas if remote panic buttons, gas detectors or firehouse annunciation alarms are activated (60 second delays available)

Ease Of Access
Power indication and QR code for easy access to

PARTCODE: MERLIN1000Si

Incredibly Easy to Use & Install

- ✓ Adjustable time-out facility shut off gas if accidentally left on or when not in use
- ✓ Industrial Grade Polycarbonate material to withstand daily use
- ✓ Indoor range & outdoor grill control available

ADD CARBON MONOXIDE PROTECTION

AGSCOTFT

Every year, at least 430 people die in the U.S. and approximately 50,000 people visit the emergency department to accidental CO poisoning.

Adding a CO detector to your design can help protect life from the silent killer Carbon Monoxide.

The AGS solutions are already protecting hundreds of commercial properties & fire houses across the U.S.

Intuitive and accessible design makes the AGS range easy to specify, easy to install and very user friendly.

Modern components compliment years of industry experience to provide a tidy solution to fire house ranges & outdoor grills.

Multiple inputs available to adapt the operation of the controllers, including fire alarm shut down, fire house annunciation alarms and BMS communications.
