

Tornado Shelter Control Safety Solution

One Merlin Panel Controls All Key Facilities

Compact, robust and reliable systems for tornado shelter facility control

Robust Control

Merlin controller mounted in a single door cabinet, 14 gauge steel, nema 12 enclosure with impact resistant safety glass and a wood back panel

Emergency Shutdown

Recessed fascia panic button for ease of activation in an emergency situation

Easy To Use

Clear status indication for each Utility

Quick Operation

Keyed authority ON/OFF Alarm re-set

Multiple Mounting Options

Available for wall, fire wall and flush mount applications

Modern Design

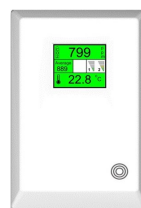

Touch sensitive buttons

Ease Of Access

Power indication and QR code for easy access to manuals

PARTCODE:
MERLIN1000SW+i

ENSURE SUFFICIENT AIR QUALITY AT ALL TIMES

MERLIN CO2 TFT MONITOR

The Merlin CO2 TFT is designed to monitor carbon dioxide in the air, local temperature and provide a clean breathing air environment.

Modern technology provides precise, easy to read measurements in a single device. Using relays and 0-10vdc outputs the unit can interface with all modern BAS systems & mechanical ventilation. The continuous CO² self-recalibration feature eliminates the need for routine maintenance.

Incredibly Easy to Use & Install

- ✓ Complete keyed control over facilities
- ✓ Industrial Grade Polycarbonate controller material housed in steel enclosure
- ✓ Can be used for various types of facility control

The AGS solutions are already protecting hundreds of commercial, domestic & academic properties across the U.S.

Intuitive and accessible design makes the AGS range easy to specify, easy to install and very user friendly.

Modern components compliment years of industry experience to provide a tidy & adaptable solution to facility control.

Multiple inputs available to adapt the operation of the controllers, including fire alarm shut down and BMS communications.
