

AGSMG MerlinGuard Gas Detection & Ventilation Control System

Product Overview:

The AGS Controls MerlinGuard is a gas detection & ventilation panel to be used with up to sixteen (16) AGSTFT detectors. It is intended for use in spaces that require either refrigerant, toxic or combustible gas detection and provides a pre-programmed control panel including features such as fan control options, alarm damper control, and connectivity to Building Management Systems (BMS).

The panel has four output options for pre-alarm and high-alarm conditions, and contains a 0-10V output that can be utilized by the BMS or for fan control via VFD.

Technical Specifications

General

Model:	AGSMG MerlinGuard
Capacity:	Up To 16 Channels Per Controller Unit
Size: (H x W x D)	7.08" x 10.03" x 3" Inches
Housing Material:	ABS Polyac - PA765 / UL 94 V-1
Mounting:	Indoor Use - Wall Mounting
Weight:	2lb 13.85oz
Display:	4.3" TFT Touch Screen
Visual Indicators:	Green: Normal Amber: Alarm Delay Yellow: Pre-Alarm Red: Alarm
	Relay Outputs ON/OFF
	Gas Detection Status
Audible Alarm:	>70dB @ 3.28ft (1m). Quiet conditions
Buttons:	Common for Silence/Reset operation
Power Consumptions:	14.5W Max
AC Power:	100-120V - 50/60Hz
Internal Fuse:	T3.15A L250V
Relay Output::	Volt Free Relay Outputs x4 (non-latching) - NO/COM/NC 6A @ 120V
	User Configurable - Energised/De-Energised - Time Delay - 24VDC Switching
Common Output:	24VDC Permanent / 0-10VDC Variable
Ingress Protection:	Nema 4 / IP64 (See Manual For Further Information)
Operating:	14~122°F 30 ~ 80% RH (non-condensing)
Storage:	-13~122°F up to 95% RH (non-condensing)
Typical Wiring:	Power & Relay: ~#18-12AWG / Detector: #12-18AWG Power Pair; #18-22AWG Data Pair / Other: #18-22AWG
Electromagnetic Compatibility and Electrical Safety:	IEC 61010-1:2010 + AMD1:2016; EN 61010-1:2010 + A1:2019; UL61010-1/2012/ CAN CSA C22.2 No. 61010-1-12/ A1:2018-11
	EMC EN 61326-1:2013

AGSMG MerlinGuard PCB Overview

AGSRTFT DETECTOR

MERLINGUARD

1. Use the high alarm relay (output 2) to send 120VAC or 24VAC power to the fans to activate them. This design would require two fans. One fan would cover your standby airflow rate, and the second fan would turn on during a gas detected scenario and increase the ventilation rate to the emergency extraction rate defined by ASHRAE of 100X the standby rate. Use ASHRAE 8.9.8.1 to calculate ventilation rate.
2. Use the 0-10V output to signal a VFD control fan, and have it run at a continuous standby rate and ramp up to the emergency extraction rate upon detection. The 0-10V output will send a linear voltage signal to the VFD based on the sensing range of the detector.

Product Overview

The TFT range of AGS detectors work in combination with the AGS Merlin range of Gas Detection panels and Utility Controllers. The AGSRTFT features an NDIR sensor for industrial and commercial indoor applications. Compact, modern, digital design makes the units aesthetically pleasing and easy to install.

Communication	RS485 MODBUS RTU

Multiple detectors daisy chained in series

24Vdc Power Input/Output & Data
Compatible with the Merlin GDP-X range.

AGSAABLP 24V Low Power Alarm Strobe

Audible / Visual Alarm Beacon

The AGSAABLP is a remote visual and audible alarm beacon designed for use with the AGS gas detection series of products, including the GDP, MerlinGuard, and ParkSafe controllers. The AGSAABLP offers a highly effective way to alert of a hazardous gas leak condition. The low power model give the capabilities to have more strobes from one panel. The AGS detection products feature integral alarm buzzers, but the AGSAABLP offers redundancy and alarm in remote locations.

Features

- Offers 32 different tones
- Includes 10 high density LEDs
- For indoor use only, see AGSAALP-WC for a weatherproof cover
- Low power consumption which allows for multiple strobes from one control panel
- Durable polycarbonate construction
- Made in the USA

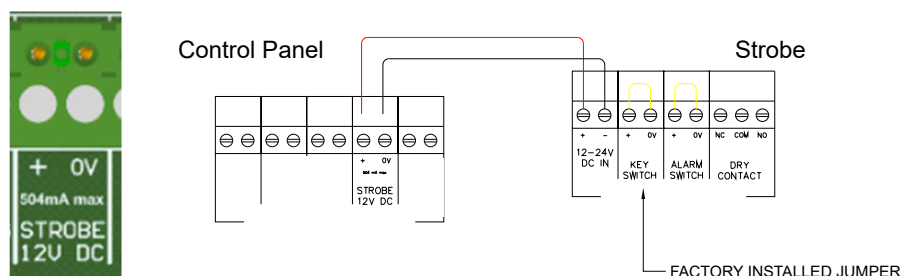

Compatible Accessories

- AGSAABLP-WC weatherproof cover

Wiring to AGS Control Panels

The AGS Control panels provide 12-24V dedicated outputs for alarm strobes. The diagram below shows a general detail on how the strobe wires to the control panel. The control panel terminal configurations may vary from panel to panel. See the control panel user manuals for more details on the strobe outputs.

AGSAABLP 24V Low Power Alarm Strobe

Technical Specifications	
Operating Voltage	12-24VDC
Power Consumption	Stand by: 50 μ A
	Siren low volume: 85mA
	Siren high volume: 90mA
	Strobe: 25mA
Siren Volume	Low: 85 dB at 1'
	High: 100 dB at 1'
Alert Tone	32 selectable sounds

FRONT

SIDE

AGSAAB-WC Alarm Strobe Cover

Product Overview

This enclosure is designed to prevent the AGSAAB from water ingress into the electrical housing, or junction box due to rain, hail, or snow. Constructed out of durable polycarbonate material and slotted for sound penetration, this cover will prevent water intrusion from exterior environments making the AGSAAB suitable for outdoor installation. Please contact us with any questions on use. This cover is designed to protect the AGSAAB in exterior environments in North America.

Compatible With AGSAAB and AGSAABLP

Approvals And Warranty

Tested and approved or listed by:

- ✓ Underwriter Laboratories and Canadian UL File S7025
- ✓ cUL Approval For UL 1638 Only
- ✓ CSFM Needs Local Approval
- ✓ ADA Compliant

 BOILER OFF

Construction

- ✓ Station housing molded of tough polycarbonate
- ✓ UL listed to U.S. and Canadian safety standards

Specification

- ✓ Indoor use only. Not recommended for outdoor/water applications.
- ✓ Temperature range of button 15° to 120°F (-9° to +49°C).
- ✓ 1 N.O. and 1 N.C. contact. 1 AMP @ 250 VDC 3 AMP @ 600VAC
- ✓ All terminals accept two 12 to 18 (AWG)

Product Overview

The AGS-ESO multipurpose push button can be used for a wide range of applications with the AGS Merlin range of safety systems.

The AGS-ESO is a twist re-set, flush mounted button and comes with a clear protective cover to provide accidental activations.

Key Features

- ✓ Protects against vandalism, accidental damage, dust and grime
- ✓ Indoor use only
- ✓ Twist release reset
- ✓ ADA Compliant
- ✓ Various colors, text & design types available upon request
- ✓ 5VA Flammability Rating
