

AGSWP

Weather Proof Cover For AGSGSV Valves

**Nylon Water
Proof Material**

**Provides Weather
Proof Seal**

UV Resistant

**1/2" to 2"
Covers Available**

Standards

Product Overview

The AGSWP is a separately supplied weather proof cover designed to repel water from the valve electronics when mounted outdoors.

The cover is mounted over the coil, and provides additional weather proofing to the valve to ensure no water can enter the coil and cause damage. The bottom of the cover is open to atmosphere to allow heat dissipation.

It is made of a weatherproof and UV resistant Nylon material designed to last in the worst of environmental conditions.

Sizes Available

Valve Size " (inch) NPT	AGS Part Number
1/2"	AGS-WP12
3/4"	AGS-WP34
1"	AGS-WP1
1+1/4"	AGS-WP114
1+1/2"	AGS-WP112
2"	AGS-WP2

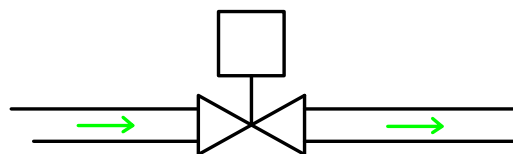

To order with the gas valve add -WP suffix to part number

Features

- Nylon Construction
- Water Resistant
- UV Resistant
- Easy Installation

Mounting Position

The AGSGSV valve must be installed vertically when using the AGSGSVWP.

WARNING

If the flow is not in the same direction of arrow, valve may not shut off.
