

# AGSAAB-WC

## Water Resistant Cover For AGSAAB Alarm Strobes

### Product Overview

This enclosure is designed to prevent the AGSAAB from water ingress into the electrical housing, or junction box due to rain, hail, or snow. Constructed out of durable polycarbonate material and slotted for sound penetration, this cover will prevent water intrusion from exterior environments making the AGSAAB suitable for outdoor installation. Please contact us with any questions on use. This cover is designed to protect the AGSAAB in exterior environments in North America.

### Compatible With AGSAAB:
